

# Model MKT 115 | Dynamic climate chambers for rapid temperature changes with extended low temperature range

Temperature ranges between -70 °C and 180 °C, with the added benefit of natural simulation, are what make the BINDER MKT series so unique. At the same time, this environmental simulation chamber fulfills the very highest precision and performance requirements for cyclical temperature tests.

#### **BENEFITS**

- Homogeneous climate conditions thanks to APT line™ technology
- · Comprehensive programming and data acquisition
- · Large heated viewing window

Model 115

## MAIN FEATURES

- Temperature range: -70 °C to 180 °C
- · 4 zero-voltage relay contacts
- APT.line<sup>™</sup> preheating chamber technology
- Programmable condensation protection for test material
- · Heated viewing window with LED interior lighting
- BINDER Multi Management software APT-COM™ Basic Edition
- · Troubleshooting system with visual and audible alarms
- Intuitive touchscreen controller with time-segment and real-time programming
- Internal data logger, measured values can be read out in open format via USB
- · Access port with silicone plug: 50 mm, left
- Class 2 independent adjustable temperature safety device (DIN 12880) with visual alarm
- · 4 castors, two with brakes

Model 115

- · Computer interface: Ethernet
- · 230 V power socket on the right-side control panel
- · Adjustable ramp function
- · Integrated chart recorder
- · Real-time clock
- · Door heating
- · 1 stainless steel rack
- · Inner chamber made of stainless steel
- CFC-free refrigerants R-452A and R-23
- · Cooling with cascade compressor cooling unit

## ORDERING INFORMATION

| Interior volume [cu.ft.] | Voltage        | Option model                         | Version       | ArtNo.    |
|--------------------------|----------------|--------------------------------------|---------------|-----------|
| 4.1                      | 400 V 3~ 50 Hz | Standard                             | MKT115-400V   | 9020-0385 |
|                          | 480 V 3~ 60 Hz | with voltage and frequency converter | MKT115-480V-C | 9020-0363 |

<sup>1</sup> All technical data is specified for unloaded units with standard equipment at an ambient temperature of +22 °C ±3 °C and a power supply voltage fluctuation of ±10 %. The temperature data is determined in accordance to BINDER factory standard following DIN 12880, observing the recommended wall clearances of 10 % of the height, width, and depth of the inner chamber. Technical data refers to 100 % fan speed. All indications are average values, typical for units produced in series. We reserve the right to change technical specifications at any time.
